

PUBLIC STUDENT ACHIEVEMENT DATA DASHBOARD

**HOW ARE OUR STUDENTS PERFORMING OVER TIME AND HOW DOES THAT COMPARE
ACROSS THE STATE?**

Instructions: Utilize this worksheet in conjunction with the Public Student Achievement Data Dashboard on calpassplus.org. Log in to Cal-PASS Plus and navigate through the metrics on the tool to answer the following questions to help highlight longitudinal trends in our students' transitions and best prepare them for long-term success.

**SELECTED DISTRICT OR
SCHOOL:**

**STUDENT ENROLLMENT
FOR MOST RECENT
AVAILABLE YEAR:**

1. Which ethnicity characterizes the largest percentage of students and which ethnicity characterizes the lowest percentage?

2. Which student subgroup is performing the best on CAASPP English test results for the most recent academic year? CAASPP math test results?

3. Which student subgroup has shown the most growth in CAASPP test results over the past five years?

4. What percentage of socioeconomically disadvantaged students were at or above grade level in English 5 years ago? How does that compare to the most recent year?

5. For the most recent academic year available, how many female students exceeded the standard for performance in ELA? Exceeded the standard in Math?

6. Within the most recent five academic years, which year did students most succeed when compared to the state averages?

7. What are the top three highest ranking performing districts in the state for the most recent academic year?

8. What are the top three highest ranking performing districts in the state that have the most similar characteristics to your district? What are those characteristics?
